A Message from the Upper house by Capt: Alex: Parris One of the Members of that house desireing that this house would attend their house to hear their reasons that this house is not dissolved.

This House attended their house accordingly—

The House returneing the Speaker recited the reasons of the Upper house why the not meeting according to the adjournm^t: did not worke a dissolution which were were these ffollowing Ffirst The Authority of the Lord Cooke in the fourth part of his Institutes Containeing y^e Jurrisdiction of Courts Chap:1.) of the high Court of Parliam^t: page 28 who Asserts that the Parliament Cannot End or be dissolved without the p^resence of the King either in P^rson or representation. Nehil oriton tam conveniens est Naturali aquitati, unumquodqr dissolvi legamine quo Logatum est

Therefore y^e house of Commons cannot dissolve them Selves by their non appearance att the day of Adjournm^t:

2)¹⁷ If any Courts Council body Poletick or Corporal appointed or Meeting at a day Certain & fail therein this Can Only discharge the Sutors from their Attendance till further Notice but Cannot Opperate to a dissolution of that body or Society

If the Absenting of a Certain number on the day w^{ch} Numbr: is but a part of the Society or body Poletick could worke a Dissolution there would be but A few Antient Societies at this day It being Easy for designeing P^{ersons} to bring that to pass:/ If the Absenting of a Certaine Number as above) The Commons of England would not with somuch Industry have struggled with the Court Ever since the long Parliam^t: (under which the Nation So long groaned in the reigne of Cha: y^e 2^d.) for a Trianiall Act the maine designe of that Act being to procure a dissolution before designeing Princes and their partyes should have to much P^{ersonall} Acquaintance with the Commons for reasons English Men are not Ignorant off—

If the absenting as above being but a part of the Comons could dissolve the Parliam^t: they must have greater Power then the King for he must do something to dissolve it but this is doing Just Nothing but Nothing Cannot Opperate/

And Could it; we feare it would be to y^e worst End Possible Even to a Dissolution of the ffabrick and ffoundation So that in Our Oppinion nothing Could Ensee, but Anarchy or Arbitrary Govern^t./

If the Representative body of the Commons of England Should So degenerate as to act Counter to the true Interest off the Kingdome the People has no remedy but by Petition to the King to dissolve them that they may mend their Choice or waite untill the Trianial act does it

Uppon Dew Consideracon and Debateing of the above reasons and Authorityes by this house./

Resolved - - - Nemine contradicente./

Mr: Speaker & Gent^m=

Wee have not less Reason now to Expect warr Betweene the Crowne of England & y^e Crowns of France and Spaine then we have had six or Eight months past Therefore Recommend to you to Consider of the most Expeditionary ways to finish and secure the works allready begun for the defence of Charles Towne. It's a work which Prudent & Providant People would Chuse to do in time of profound Peace, Least if it be to be done after a warr begun the Enemy may fall on us before it can be ¶fected, nor will be it of greater Charge to ¶fect these works wth: Expedition then in a Longer time

Wee Recomend to you a Collection of the Statute Laws of England which already are or easily may be adopted to this Colony, and are not allready in force here, Peticularly such statutes as are made in England to discourage and punish fornication and to provide for the maintainance of Barstards & Poore People, And the Act made in the Kingdome of England for the more Effectuall Suppressing of Blasphemy & profainness A copy of which you have in your House not ¶fected by y^e Late Assembly

Wee Recomend to you to Consider of a Better Way of Keeping of a watch in Charles Town then hath yett been by Law ap-
poynted, a Good Watch in Charles Town is Convenient in time of Peace and as Necessary in Time of warr as our Batteries of Great Gunns which wthout a good watch will be of no use to us/

Wee Recomend to you to Consider of wayes to Prevent the Nation of Indjans Called y^e Tallabooses and others Living to the Southward of y^e Savana River from acquainting themselves wth the french y^t Live on the South Side of y^e Bay of Apalache, for wthout Due care be taken to Prevent it they must eilie them Selves to the French or be Destroyed by them, nor can they be friends to them and us at the Same Time. I have advice that a Great many of the French have already Planted them Selves among a Great nation of Indjans which now are & allwayes have been Enemies to all the Indjans wee trade wth= And that the French Indjans have allready Killed Some of y^e Tal-

labooses, Care must be taken to Prevent Trade wth the Indjans on Trust, That a lone in a short Time will force the Indjans to apply them Selves to the french for a Trade, as well as Protec-tion from the Severity of their Creditors, The Same Care ought to be Taken to Reforme the Barbarous, Heathenish Immorall & Unjust way of Living & Dealeing of y^e Persons that Live among and Trade wth the Indjans,, If Speedy care be not Taken for these things we Feare wee may wish wee had Done itt when it will be to Late,

Gentlemen I have the most Numerous Family of Relations and children in the Collony, And to settle them as they Grow up have Laid out a Great Part of what I have in Settling Plan-tations for them, And Those in the most Inland Parts of the Collony (wherefore (If for want of Timely Care to Prevent it) any mischeife fall on us, from the Indjans I have Reason to Ex-pect to be the first and Greatest sufferer, Therefore Beleiveing it better for my Selfe and family to prefer y^e Saveing of what we have already to the Prospect of gitting more by y^t Trade which without a Seasonable Regulation will be the undoubted occation of Looseing as well What I have already as what I may Gitt by it, I will Readily Consent to any Law you shall make for y^e Regulation of that Trade and the Prevention of y^t mischeife which we may Expect from the Trade of our Indjans wth the ffrench, Even to the Ceaseing to trade wth the Indjans or to be Concerned any way Relateing to it Whilst I am Gov-ernor:, If you thinke that fitt, Provided the Laws you shall make Relateing to that matter shall Aime at nothing but the Publick Safety/

Wee allso Recomend to yo^r- Consideration the Last Constitu-tions sent hither by the Prop^{rs}: which if you shall not Thinke fitt to Pass into a Law, That you would appoynt a Committee of yo^r- House to Consult wth a Committee of our House to make such amendments and Additions as may be thought for the Good and Safety of the Province./

ordrd: That y^e Same be Entred in the Journall of this House, which is as followeth

M^r: Speaker and Gent:

Wee doubt not but you have heard (wth: Reason enough to beleive) That our Queene Ann hath beene pleased to proclaime warr against y^e Crowns of France & Spain and their subjects.—

Which gives us Reason to Recomend to yo^r: Consideracon The takeing of St: Augustin before it be strengthened with french forces. and if y^t by you as it is by us) be thought necessary & possible to Consider of the best & speediest wayes of doing it.—

This wee beleive will open to us an easie & plaine way to Remove y^e French (and less dangerous Enemy in time of peace then warr) from their settlement on the south side of the Bay of appalattia.—

These being done by us (we have Reason to beleive will make us so knowne & Recomend us to her Mat^{ie}: that with the Consideracon of the Dutys we already pay to the Crowne and the prospect of their augmentation and our being the fronteere Colony of all her Mat^{ies}: Plantations on the Maine in america) wee may hope her Mat^{ie} will (think us worth the Continuance of her protection & Royall Aide.—

Wee Recomend to you as highly Necessary the Repairing & finishing the Batteries of great Guns & y^e placeing Cannon Basketts thereon or some other sort of defence from small arms for y^e men y^t shall manage the Guns.—

To Enquire into our Stores of Amunition and Armes.—

To make the watch in Charles towne more usefull as well in peace as this time of warr, w^{ch}: we beleive may be done wth: Less charge to y^e Inhabitants then now it is.—

To consider off & prepaire a Bill for y^e Regulateing Militia during y^e war (that act wee have already not being adapted for such times, wee have not power to Compell a p^{erson} fitt for it to take an office; Sev^rall Companys want

drummers, and tho= in ev^{ry} Beat there are men enough quallified for it yett few or none will doe it./

To Consider of the Number of men necessary to keepe watch on the sea Coast, the Number by your former act for that End made being Limited to Tenn which we think not Enough.—

To Provide boats, Canoes Pereaugoes for transportation of men from place on the appearance of An Enemy to the South ward with oares sailes &c And to direct the most Convenient places to Keepe them in./

Wee hope Gent that the weightiness of these things & the necessity of having them done together with y^e Consideracon That if they be not speedily done we may never have the Like opertunity to doe them will prevaile on you to postpone all other things to these and to lay aside all Differences & P^{ar}ticular Interests./

As the Estate of our Militia & watches now are wee are not Capable but by marshall Law to Enforce the doing of that which is necessary to be done for y^e defence of the Country./

Marshall Law we doe not desire to Live under. Tho most of her Mat^{ies}: Govern^{ts}: in the west Indies have done soe from the first apprehensions of warr. And his Late Mat^{ies}: Advice to the sev^rall Govern^{rs}: to take Care of his Plantations./

But if for want of that or some better means (w^{ch}: is your part to provide) for to preserve this Collony, Itt happen to be Lost Wee Cannot answer it to her Mat^{ie}: the Lords prop^{rs}—:, our fellow Subjects, or our posterities Therefore you Cannot but Expect (if you Neglect it, or preferr other business to it) That we shall think it Necessary to Consider of some other most safe and Speedy waies of makeing the Collony Safe, from such Invasions and attempts we may Expect from such an Enemy as the French and Spainyard.—

Wee Recommend to you the same things wee Recommended to you att the first opening of this Parliamēt, And which are not provided for by you./

of y^e Hono^{ble}-. Members of y^e upper House May it Please yo^r-

Hono^{rs}:/ Since none can Lay aside what he never had, wee cannot but thinke our Selves Charged wth haveing persued particular Interests, and haveing had differences amongst us to y^e Delay of y^e Care of y^e Publick wellfare, by yo^r shewing us in yo^r Speech y^t the weightiness of the Present affaires would prevaile wth us to postpone all other things, And to Lay aside all Differences and Perticular Interests, Now this is Such an Imputation as being true would Render us unworthy y^e Least Esteeme, To free our Selves Therefore from it, we think it Proper to Represent the whole matter to yo^r Hono^{rs} at one Vew: Tis True that being by yo^r: Hono^{rs} conven'd on y^e first of aprill Last, the busiest time for the Planter of the whole yeare, Wee Did on aprill y^e 6th adjourne to may y^e 5th= following, But we may Conclude that Small Delay did threaten no Great danger, since it was prolonged by yo^r Hono^{rs} Prorogueing us to may y^e 13th= At which time we mett, And to y^e best of our Power Endeavoured to Dispatch both what yo^r Hono^{rs} had Recomend^d to us & Enquire into y^e Cause of those many Complaynts that Lay before us of y^e Great Infringments made the Last Election on the Peoples liberties in freedome in Elections, a few weekes would have dispatcht these matters of soe Great moment; But we had satt but few dayes But yo^r Hono^{rs}: thought fitt to Prorogue us, and afterwards to Continue that Prorogation to the 19th of this Instant august. Now we hope yo^r Additionall delay will cover our first adjournm^t: And of this Last delay It's plaine we are wholly Cleare, But this Charge is not our Greatest trouble from y^t Speech for that threat (other we Cannot call it) of useing martiall Law is a Superlative one Oh how is y^t Sacred word law profaned when Joyned wth Marshall/ Can we Say the ffrench King Rules by Law, who Rules by a Will that hath no Law or bounds Sett to it; What from such Rule we may Expect, aske the french Refuges; English Kings & Governo^{rs}: make us happy in Ruleing by those Laws the People forme; But that this Arbitrary Rule denies; as y^t Great Lawyer noy Shewed; Who when that unhappy Prince Charles y^e first Thought it fitt to be putt in Practise, in Sending an Army against the Scotts, declared the Courts of Westminster must be Shutt when such Rule was Practised. Nay our most arbitrary & unhappy Prince the Late King James never presumed to be so absolute, But proseicuted some he had taken who had deserted in y^e Common Courts of Justice for stealeing his Cloath their

Coats. But what need wee Colour this Pointe; yo^r Hono^{rs}: owne noble Endeavor: to vindicate our Liberties when Governo^r Colleton sett up this arbitrary Rule shews you fully in our Sense, and at the same time y^t: these paragraphs Could not flow from yo^u Excelent Judgm^t: But must have been forced on you by some Rash and Slavish nature, Nor are wee at Loss to Guess y^t mann; for Saturday Last we were Informed that Just before our meeting on y^e 19th Instant, Robert Daniell Esq^r a memb^r— of yo^r Councill, Did Publickly Declare at y^e House of major— Smith, That if the Assembly did not now agree, martiall Law should or would be used, now y^t y^e assembly (considering m^r Speakers Decideing vote) can disagree in Law makeing is An Absurdity that A Councillor cannot Sure be Guilty of, his Sense must be therefore if the assembly will not make such Laws and Grant such powers as you Desire of them, you would Assume all Power. How inconsistant that is wth our Peace and y^e Great Esteeme yo^r— Care and Love of us hitherto shewn hath Raised in us is Plaine.

That therefore this Esteeme of you may not only Continue but be Increased, wee humbly Desire you to Remove from yo^r— Councill as many as you Know are Guilty of haveing Given Such advice./

good opinion by yo^r: Adress of yesterday you have been pleased
to lett me know you have of me, but am much troubled that

my Circumstances in the Govern^t: will not ¶mitt me to Comply with you, for on an unquestionable Right of Govern^t: (which in my absence I can see no Certain Rules for) depends the defence & Safety of this Colony as much as on the Success of y^e Expeditions against St[:] Augustin; Men enough of prudence, Loyalty, Courage, Conduct and Interest offer themselves for this Service And none but such, you may be assured I will intrust in any office, Its: my Right as Comander in Chief; to appoint all Military officers And I have no Reason to doubt but you acquiese in it, Pleas gent to beleive that its no Respect to my ¶son or private Interest but the Insuparable difficultys of the Govern^t: that forces me not to Comply with you. If any ¶son or member of your House Inform'd you that I sent to you the Names of the Officers for the Expedition; That you might approve or disaprove of any of them; They misinformed you; Nor did the Comittee tell me they desired that List of me for that End—

The House mett According to adjournment.

Ann fferdinando according to order Gave Information to this House of Her Knowledge of S^t: Augustine—

Mr Trott & Mr Wigington ye Committee to Supervise ye Constitutions &c Reports as followeth/

Wee find that our late Sovereign Lord King Charles 2^d, in his Royall Charter, bearing date the 30th— day of June in the 17th: yeare of his Reign, Did Give and grant unto the Hono^{ble}: the Lords Prop^{rs}— of the Province of Carolina Ample Rights, Jurisdictions, Priviledges, Prerogatives, Royalties, Liberties, Imunities and frenchises for the Good and happy Goverment of the Said Province and y^e: people there inhabitting or to inhabitt; and of his Especiall Grace towards y^e. S^d. People in the Said Charter hath made Provision, That the Said Lords Prop^{rs}— have full power and Authoritye to make and Enact and under y^r. hands and Seales to publish any Law & Constitutions whatsoever Either appertaineing to the Publick State of y^e. Said whole Province or to the Privite Utility of particular persons according to their best discretion by and wth— y^e. advice, assent and approbation of y^e. ffreemen of y^e. s^d. Province—

That y^e. Said Originall Charter is y^e. only true Basis from by and according to which other Laws, methods and Rules of Goverment which any wayes Concerne the Peoples Lives and their Liberties, ffreeholds, Goods or Chattles of y^e. Inhabitants of this Province, Ought or Legally can be taken Derived and Enacted.

That the Said Charter particularly and Expressly provids for our Civill Liberties ffreedom in matters of Religion and Conscience is thereby Given to us, by and under the Lords Prop^{rs}. Consent.—

That the Constitutions of which we are to Consider make (and) Sett up an Estate Different and distinguished from the L^{ds}— Prop^{rs}— & the Comons House w^{thout} whose Consent noe Law shall or may be Enacted, which is Called in the Said Constitutions, the Upper House, Consisting of the Landgraves and

Casiques, who being Created by y^r. Lordshipps Letters Pattents, Are alsoe a middle State between the Lords and Comons, which Constitution we Cannot find that it any wayes Contradicts the Said Charter

We find that the 22^d Article in y^e. Constitutions, manifestly Interferes wth— our Jury act, now in fforce

That all other articles in the Constitutions are as neare & agreeable as may be to the Said Charter or at Least, no wayes Repugnant to it/

The House entred into ye debate of ye s^d report & ordered ye Charter to be Read which was Read accordingly

The House ordered ye Last Constitutions sent here by ye proptrs to be Read which were Read accordingly

The Question is Put whether This House is of opinion that the Constitutions Now before us Are valid being Enacted by us Since Severall of the Prop^{rs}— are Dead that Signed the Same.

The Humble Address of the House of Comons—

May it please yo^r— Hono^r—

How much yo^r— Hono^r— has Revived and Encouraged us.— Vigorously to promote, our present designe ag^t St. Augustine by your generous and noble offer by m^r— Speaker of yo^r— P^{ar}son to Head and Comand our fforces to be Raised for that purpose is a Subject fitter for Contemplation then Discourse, and we the Representatives of the People of this Province doe think itt our bounden duety to Returne you our harty thanks, first, for adviseing us to undertake Soe brave an Enterprize, and next for your mighty Condescention in Comanding in it.

It Is true, when we first addressed yo^r— Hono^{rs}.— to take uppon you to be Comander in cheife in this Expedition we had uncomon ffeares of the Dangers and Hazards you must necessarily encounter withall, and the Safety of your person was not the Least of our Concerne, but when we Reflected, that our probable Success depended uppon your Courage and upon your only Conduct, we were even unwillingly desirous to have you for our Comander—
